

## How to use the Content Manager

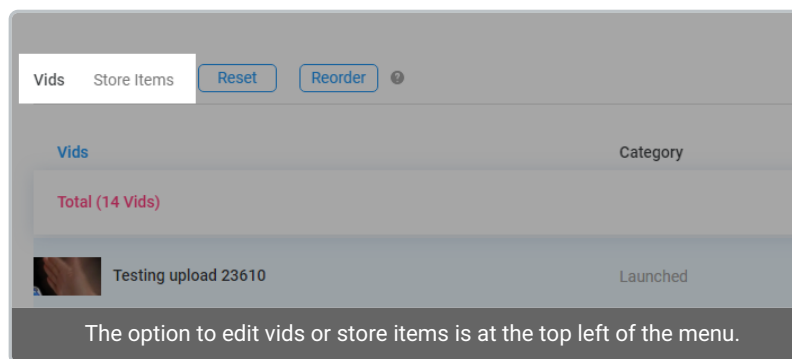

Last Modified on 12/10/2023 12:54 pm EST

The Content Manager page is where you can edit the layout of your store. It lets you:

- pin items to the top of your store page
- edit and delete Vids or Store Items
- see vids that are set for future release and more!

To find this section of your account:

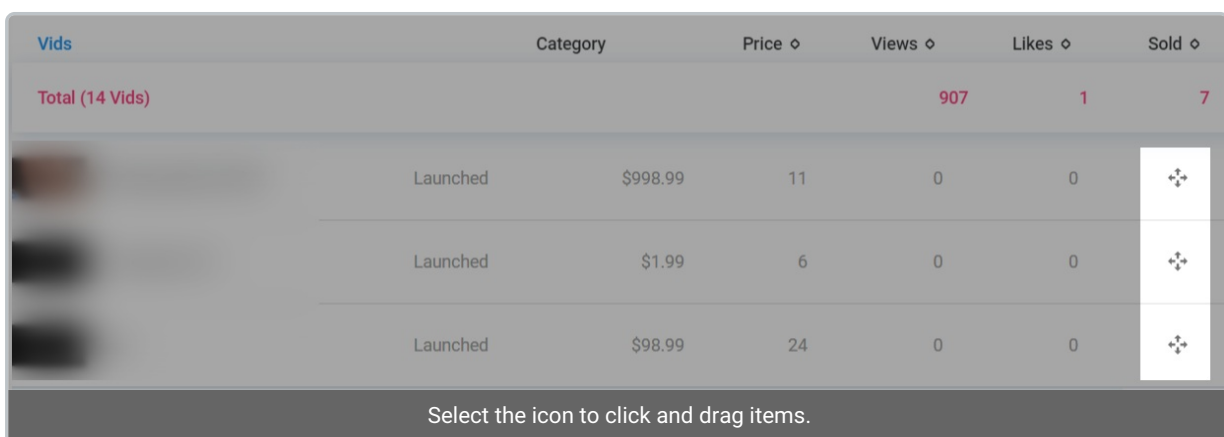

1. Click the drop-down menu
2. Dashboard
3. Manage my store
4. [Content Manager](#)
5. Select if you want to edit Vids or Store Items:

## Reorder vids/store items

If you want to reorder things as they appear on your profile:

1. Click "Reorder"
2. Drag items up and down the page to select their position:

3. Click "Save" when you're done.

You can only reorder vids on a vid page. To move vids between changes, you must follow the process below.

## Moving vids/store items between pages

To move a vid from page to page in your content manager:

1. Turn off "Reorder"
2. Click the 3-dots to the right of the vid and move it ahead or back one page (you will only be able to move it one page at a time)

## Content management tools

Clicking the 3-dots to the right of a Vid or Store Item will also give you the following options

- "Pin" items to the top of your profile to make sure they always appear first (click the 3-dots again and hit "Unpin" to unpin the item)
- Post to promote that item (if your [X account is connected to your MV account](#))
- Edit the details of that item
- Delete the item from your page completely

	price test	Launched	\$2.99	19	0	0	\$0	⋮
	Testing for scheduling	Launched	\$998.99	22	0	0		⋮
	Test english	Launched	\$998.99	35	0	0	\$0	⋮

To view and edit your vids that are set for future release, click where it says "Launched" and change it to "Scheduled".

Views ↕	Likes ↕	Launched ↕	Scheduled ↕	Price ↕
770	1	7		\$10.65
3	0	0		\$0

Feel free to play around more in this page! It's a great way to see your sales, views and likes across all your Vids and Store Items to determine what works best on your page.
