

## How can I verify another performer for Live?

Last Modified on 07/09/2024 4:09 pm EDT

You are allowed to appear with other Creators or non Creator co-performers during your Live session!

If you wish to go live **with another Creator**, you can just contact [help@manyvids.com](mailto:help@manyvids.com) and let us know which Creator you plan to perform with.

To perform with a **co-star that is not currently a Creator**, simply send a copy of their **valid government-issued photo ID** to [help@manyvids.com](mailto:help@manyvids.com) before you go live!

If you plan to record your live show with another performer to post on your profile for sale, be advised that you'll need to keep a copy of their ID and a signed release form on file as they need to be declared as co-performers via the site vid uploader. You can find our blank release form [here](#).
