Last Modified on 03/15/2024 4:30 pm EDT

We have an incredible number of categories that you can choose from. Tag your images and SFW or NSFW vids so members can easily find both your sexy and safe for work vids!

To tag a category, you just need to start typing the category you want to tag when uploading, then click the option that appears in the drop-down menu:

UPDATE March 13th, 2024: In addition to the selection, you can now create your OWN custom tag. Simply start typing the word and if it does not already exist, you can simply click Add New Tag.

You can now also choose up to 10 categories for your vid!

When adding your Vids to MV, you'll want to make sure to apply the appropriate categories to give yourself the best chance to be found by members who are searching for that type of content.
