

## How do I set Moderators for my Live room?

Last Modified on 07/09/2024 2:24 pm EDT

Need a little help in monitoring your live room and making sure everyone is having a good time? If you have Members you trust, you can set them up as Moderators for your current live session. They will appear in **Green** so everyone knows it!

To set a member as a Moderator for the current live show:

- Click the drop down next to their username
- Click MOD
- You can also click "UNMOD" to remove their moderator privileges

When you make a member a mod they will be notified. Mods are able to block other users from your live show on your behalf!

This is a great way to make sure you can focus on performing even if you do have someone in your room who isn't vibing.

If you ever do have someone causing you issues in your live room and you feel their actions go against our [Community Guidelines](#), please be sure to block and [report them to MV Support!](#)
