

How do I find the purchasing member's shipping address?

Last Modified on 05/16/2024 1:06 pm EDT

If you are wondering where you can check into a specific member's shipping details so you can send out physical items, your Recent Sales page will give you all the important information for you to do this!

All you have to do is to:

1. Click on the drop down menu
2. My Earnings
3. Recent Sales
4. Filter by Store

You can also update the status of their package as either *Being Prepared* or *Shipped* and this lets the Member know when they should start looking out for their package.
