

Is MV only for paid vids? Do I have to sell everything I upload?

It doesn't matter if your vids are 1 minute or 1 hour long, or if they cost \$1.99 or \$999.99, you are always in control of your content and your prices just like you are in control of your career and your choices!

You have the option to upload FREE vids to your MV Store or to your [Club](#)! This is an easy way to promote your content and attract more fans to your MV Profile.
