Yes, you can tip Tokens anonymously!

MV Members can tip anonymously by checking the box 'Anonymous' when sending Tokens as a tip during an MV Live session. The Creators which are doing the live show will see the amount of the tip, as well as the name of the Member, but other Members or Creators viewing the show will not be able to see the amount of Token or who tipped them. The only information that will be displayed on the live chat room will be: "An anonymous member has tipped."
