

How do I update my Live Portrait Photo?

Last Modified on 07/09/2024 2:46 pm EDT

Did you know that just uploading a portrait picture will increase your chance of sales by almost 65%? Our new and improved Live page helps draw in viewers by displaying your best portrait pic to grab their attention! **Your portrait also links back to your profile from Live!**

The photo that is displayed on the Live page for each Creator is your portrait pic. The smaller circular image shown below the portrait photo is your avatar photo, which is shown on the "Creators" page.

To add a portrait:

- Drop down menu > My Profile
- Edit profile
- Portrait
- Click the camera icon to select a pic

This will give you the option to customize the image that is displayed on the Live page to help members find you.

For further information on updating your profile pics, [click here](#).

You can also visit the [Live section of our Creator Help Center](#) for more information on Live and its features!
