How do I tip a Creator during a live show?

To tip a Creator during a live session, you'll first need Tokens, the currency for Live.

Tokens can be purchased from any live room by clicking the "Buy Tokens" button. You can find more info on that here: [Where can I buy tokens?](#)

Once you have your Tokens, you can tip during a live show!

To see what the Creator will perform for certain tip amounts, check their Tip Menu next to the "Buy Tokens" button. Please note that Creators can view your token balance.

You can also send a custom tip by adding a tip amount and a message at the bottom of their tip menu (max. 200 characters), or send special tips to the Creator from the "Give" menu.

To make your tip anonymous, simply click the "Anonymous" button before sending the tip.

Any tip will contribute to the Creators room goal found to the left of their stream. If they don't have a goal, be sure to ask the Creator to add one!

When you purchase a Photo Set from a Creator, you should first check if the file is already attached to the store listing. If so, you will be able to download the Photo Set in the form of a .zip file directly from your Purchase History (found in your drop-down menu). To check if the file is attached, go to the store item listing and look for "Downloadable file" just above the total cost.

If the file is not attached to the item listing, the Creator will need to send the Photo Set to you by some other method. The Creator will have 30 days to fulfill the order before it is considered overdue and you can private message the Creator within that period to discuss your purchase.
