

How do I change my password?

Last Modified on 08/17/2023 3:45 pm EDT

There are two ways to change your password on MV.

If you are unable to login and you forgot your password, you can click "I Forgot Password" at the login screen to send a password reset email to the email attached to your account:

The screenshot shows the 'Login to ManyVids' interface. At the top, there is a button labeled 'Continue as a Member with Google'. Below this, the word 'or' is centered. There are two input fields: the first is labeled 'Username or Email' and the second is a password field with a red eye icon to toggle visibility. Below the password field is a purple 'LOGIN' button. Underneath the 'LOGIN' button is a link that says 'Forgot Username or Password?'. Below that link is the text 'Don't have an account?'. At the bottom of the login area is a blue button labeled 'CREATE YOUR FREE ACCOUNT'. A dark grey banner at the bottom of the screenshot contains the text: 'The option to reset your password is available under the Login button.'

To change your password while logged in:

1. Go to your drop-down menu
2. Security Center
3. Click 'View' next to "Change Password"
4. Enter your current password, then your new password twice
5. Click save and you will be logged out of your account and you can now login again using the new password.

When creating a password for your account we recommend using a strong password that contains at least 1 uppercase letter, 1 lowercase letter, a number and a special character.
